

SOURCE GUIDE

# COMMERCIAL PROGRAMMABLE THERMOSTAT

FEATURES	BENEFITS
Remote Space Sensing	Allows for Space Temperature Control of Public Areas or Areas Where Aesthetics is Critical
Sensor Averaging (Remote Room Sensor and Stat Sensor)	Provides Consistent Temperature Control Throughout the Area(s) Being Monitored
Keypad Lockout	Eliminates Unauthorized Adjusting and Configuration Without the Need for a Bulky Locking Cover
Cooling Lockout	Saves Energy by Restricting the Use of Costly Mechanical Cooling When the Outside Air Temperature is Below a Predetermined Set Point
Heating Lockout	Saves Energy by Restricting the Use of 2nd Stage Heating When the Outside Air Temperature is Above a Predetermined Set Point
Clean Filter Indicator	Notifies Maintenance Personnel When the Filter Needs Inspection Without the use of Pressure Switches
Power Loss Memory Retention	Provides Peace of Mind During and After Power Loss. Provides Backup of Set Points Indefinitely and Clock and Scheduling Data for up to 72 Hours
No Batteries Required	An Internal Power Source Eliminates the Need for and the Maintenance and Replacement of Batteries
LCD Display with Backlighting on Demand	Displays Current Room Temperature at all Times and Desired Temperature and Programming Information upon Demand
Auto Changeover	Changeover Between Cooling and Heating Modes Occurs Automatically Eliminating Human Intervention
7-Day Programming with 4 Time Periods per Day	Provides Consistent Scheduling to Meet the Needs of Professional, Retail, Restaurant and Office Facilities

Approvals:  
ISO 9002  
EN 29002  
BSS750 PART 2  
ANSI/ASQC Q92

**Performance Assurance**

Rated in accordance with  
ARI Standard 590-92.

(60 Hz Only)
